OLEKSIY KAPLUN

**Python developer
(Kiev region)**

EDUCATION

Beetroot Academy
08.02.2021 — 12.02.2021
A+

University of the state fiscal service Ukraine
2010 – 2013
Bachelor's degree, Finance and Credit, B

State University of Telecommunications
2004 — 2008
Master's degree, Protection of information in information systems and networks.
A+

WORK EXPERIENCE

StarLightMedia - Python developer
01.03.2021 — to date
Create python database multiservices/application

StarLightMedia - CSO(security systems engineer)
2017 — to date
Security cluster administration and support. Implementation of safety systems. Document flow

Intteks – CTO (Chief Engineer)
2007 — 2017
Full cycle of implementation of technical security systems. Service Center Management. Development of security systems

TECHNICAL SKILLS

Lang/Libraries/Modules/Frameworks:
Python, Django, REST, FastApi, Asyncio, Celery Threading, Multiprocessing, Beautiful Soup, JS(basic), REACT(basic), CSS(flaxbox, grid), Bootstrap5, HTML, MySql, SQLite, Postgress, mongoDB(cloud), Redis, OS, SYS, Argparse, Tkinter, PyQt, Socket, Decimal, Random, Struct, Array, Doctest, Pytest, Unittest, PyUSB, HIDUSB, Embedd Python Ex, Keyboard, mako, Jinja2, Logging, Numpy, Matplotlib.

Additional:
Win, Linux(Ubuntu), heroku, AWS, GIT, Github, Docker, Postman, PyCharm, Visual Studio Code, Slack.

Technical background:
---Electrical and Electronics Engineer.
Analog electronics, digital electronics, consumer electronics, embedded systems, solid-state physics, radio engineering, telecommunications, control systems, signal processing, systems engineering, computer engineering, instrumentation engineering, electric power control, robotics.

DIY Engineer:
Personal electric transport, audio amplifiers, Raspberry pi embedded programming, cnc machining assembly processing, welding(TIG, MIG, MMA), Solid works design, EasyEDA design and manufacturing, assembly of metal structures and mechanisms.
